

KEY FACTS SHEET

nbn™ Services (off-net)

Speed - how fast is it?

T-Starter (off-net)	T-Jet Boost (off-net)	T-Sonic Boost (off-net)
<p>A</p>  <p>nbn™ Speed Tier 25¹ 18 Mbps download²</p>	<p>B</p>  <p>nbn™ Speed Tier 50¹ 40 Mbps download²</p>	<p>C</p>  <p>nbn™ Speed Tier 100¹ 75 Mbps download²</p>

¹This indicates the maximum possible speed (Mbps) you can receive off-peak (11pm-7pm)

²This is the typical download speed you can expect during busy periods (7pm-11pm). It is not a guaranteed minimum speed.

If your line cannot provide the speed tier of your plan and this cannot be fixed, you can move to a lower speed plan or exit your contract without charge (for FTTN, FTTC and FTTB connections only).

Usage - what can I do with it?

T-Starter	T-Jet Boost	T-Sonic Boost
<p>2 - 3 People at the same time</p>  <ul style="list-style-type: none"> ✓ Emails + Browsing ✗ Online Gaming ✗ HD Video Streaming 	<p>3 - 4 People at the same time</p>  <ul style="list-style-type: none"> ✓ Emails + Browsing ✓ Online Gaming ✗ HD Video Streaming 	<p>5 People at the same time</p>  <ul style="list-style-type: none"> ✓ Emails + Browsing ✓ Online Gaming ✓ Ultra HD/4K Videos

Additional Notes

<p> Technical Limitations</p> <p>Your NBN Service will not work during power failures unless connected using FTTP and an NBN battery backup power supply unit is installed and working. Your speed or performance may be reduced by other factors such as your in-office setup and wiring. Talk to Telair about what you can do to improve performance. For example, elevating your router above the ground may improve your speed as electrical objects may act as a damper.</p>	<p> Medical Alarms/Security</p> <p>Before entering into a consumer contract, you should find out if any medical or security alarm services are not compatible with an NBN service and you should identify what alternatives are available. You can do this by contacting the provider of your medical or security alarm service.</p>
