

Fibre400

INFORMATION ABOUT THE SERVICE

Here's a quick summary of all the important bits about your **Fibre400** plan. It covers things like the length of your contract and how much you need to pay each month.

Minimum Term

The minimum term is either **24 or 36 months**. This depends on the plan option you choose below.

What's Included and Excluded?

Your service includes:

- **Aggregated 400/400Mbps symmetrical fibre-optic connection**
- **Minimum of 1 service location and up to a maximum of 4 discrete products supported per service**
- **Unlimited Internet Usage** with no peak or off peak restrictions
- **No Excess Usage Charges**
- **99.95% Uptime Guarantee SLA**

Service limitations:

- **Service may not be resold and is for private business use only**
- **Service may not be used for connection between Data Centres**
- **Service are provisioned at the ordered bandwidth and cannot burst**

INFORMATION ABOUT PRICING

The monthly charge depends on the contract length and installation fee you choose. All pricing excludes GST.

Installation Fee	24 Month	36 Month
\$0	\$799 (min charge \$19,176)	\$699 (min charge \$25,164)
\$999.09	\$649 (min charge \$16,575.09)	\$549 (min charge \$20,763.09)
\$1999.09	\$499 (min charge \$13,975.09)	\$399 (min charge \$16,363.09)

Early Termination

If you choose to cancel your service or it is disconnected for any reason within the contract term you will be charged an early termination fee (ETF) comprised of your minimum monthly commitment multiplied by the months remaining in your contract. You must provide 30 days' written notice to us to disconnect a service.

Order Withdrawal

If you withdraw your order prior to the associated service completion advice being issued by Telair, the following order withdrawal fees will apply:

- If we haven't yet commenced logical build = \$0
- If we've completed logical build but haven't yet commenced physical build = \$880
- If we've commenced but haven't yet commenced physical build = \$8,800

Service Relocation

Relocation fees relate to how we handle ETFs on a service cancelled

as a result of a relocation:

- Relocations within the same building are POA
- Relocations to a new building on the same access network (i.e TPG MetroE or PIPE MetroEthernet) incur a fee based on the remainder of your contract term - this is POA
- Relocations to a new building on a different access network are not supported, full ETF applies

OTHER INFORMATION

Availability

Fibre400 IP-Line is limited to TPG or Pipe on-net buildings and your address must be pre-qualified before a quotation can be provided.

Connection Timeframes

Typical installations take 6 and 8 weeks to complete. Timeframes can depend on building management approval and site access.

Ethernet Speeds

Actual speeds you will receive will vary due to a number of factors such as your the network connecting the exchange, your equipment, software and internet traffic. Transmission overheads will also slightly reduce the speeds you will receive. Whilst we classify these speeds as being guaranteed, the above factors must be considered.

The 400/400Mbps speeds can be aggregated between up to four discrete products. E.g. one product can be allocated 200/200Mbps, a second can be allocated 100/100Mbps and a third can be allocated at 100/100Mbps - totalling 400/400Mbps per Fibre400 service. Or use the entire 400Mbps bandwidth for use with one Unlimited data service. Fibre400 can be split up for use as an Unlimited Internet connection, or as a Private IP network connection.

Equipment

You will need to use a separate router to ensure the service is used with maximum efficiency. Recommended routers for use with Fibre400 are the Cisco ISR4431 and Huawei AR2220. Contact us for pricing or buy through your preferred supplier.

Billing

We will bill you in advance for the minimum monthly charge and features. Your first bill will include charges for part of the month from when you took up your plan until the end of that billing cycle, as well as the minimum monthly charge in advance for the next billing cycle.
