OTHER INFORMATION

CONNECTION TIMEFRAMES

Due to the complexity with this product and the steps involved with setting up and configuring the system and various devices, the minimum connection timeframe is usually between 5 and 20 business days from the date we accept your application. In some cases, however, this can be sooner.

Porting single numbers is usually a 4 to 6 week turn around (or 4 to 8 weeks for complex ports), however, these are requested once the application form is accepted and this is in tandem with the setup, configuration and rollout of any systems and hardware.

BILLING

We will bill you in advance for the minimum monthly charge and features. Your first bill will include charges for part of the month from when you took up your plan until the end of that billing cycle, as well as the minimum monthly charge in advance for the next billing cycle. Bills will be emailed as part of our commitment to protecting the environment.
