EARLY TERMINATION

If you choose to cancel your service or it is disconnected for any reason within the contract term you will be charged an Early Termination Fee (ETF) comprised of your minimum monthly commitment, multiplied by the months remaining in your contract.

RELOCATION FEES

Services relocating while in contract will be charged \$150 each and require re-contracting at the new premises at the same minimum term length. New Development Surcharge may also apply at new premises. If the service is not available at the new location, a full ETF will apply.

SERVICE AND PLAN CHANGES

Once you connect an **Opticomm** service, you won't be able to move your service back to the existing copper network. You may upgrade your speed tier once per month. You cannot downgrade your speed tier or plan while within contract term. Each plan change attracts a \$49 administration charge. You must provide 30 days' written notice to us to disconnect a service.

USAGE & PROMOTIONAL DISCOUNTS

Pricing on this Critical Information Summary does not take into account any promotional discounts or custom pricing. Fair Use and Acceptable Use Policies apply which can be found on our website.

OTHER INFORMATION

CONNECTION TIMEFRAMES

Once we've accepted your application, we'll try to connect your service on the date you ask for, however, this might not always be possible. Due to the complex nature of this service, we will aim to connect your service within two to five working days.

EQUIPMENT

You may use your own modem/router provided it is compatible with our service; however this means that you will be responsible for the configuration and management of the router. Ask us for information on approved routers for purchase.

SERVICE SPEEDS

The speed tier on which your service is configured indicates the maximum possible speed (Mbps) you can receive off-peak. Any typical busy period speeds mentioned indicate speeds you can expect during busy periods (7pm-11pm). They are not guaranteed minimum speeds.

Actual speeds may vary due to a number of factors such as, but not limited to, the destination of the host computer or server you are accessing, the global Internet links between us and Internet destinations, the network that connects from your location to other parts of the country, the performance of your office network, your equipment and software on your computer. Transmission overheads and network congestion may also impact speeds during peak usage times.

Some speed tiers may be unavailable for configuration at certain locations. We will confirm availability prior to connection.

BILLING

We will bill you in advance for the minimum monthly charge and features. Your first bill will include charges for part of the month from when you took up your plan until the end of that billing cycle, as well as the minimum monthly charge in advance for the next billing cycle. Bills will be emailed to your nominated billing contact as part of our commitment to protecting the environment.
