EARLY TERMINATION

If you choose to cancel your service or it is disconnected for any reason within the contract term you will be charged an Early Termination Fee (ETF) comprised of your minimum monthly commitment, multiplied by the months remaining in your contract.

RELOCATION FEES

Services relocating while in contract will be charged \$150 each and require re-contracting at the new premises at the same minimum term length. Subsequent Install Fee and New Development Surcharge may also apply at new premises. If the service is not available at the new location, a full ETF will apply.

SERVICE AND PLAN CHANGES

Once you connect an nbn™ service, you won't be able to move your service back to the existing copper network. You may upgrade your speed tier once per month. You cannot downgrade your speed tier or plan while within contract term. Each plan change attracts a \$49 administration charge. You must provide 30 days' written notice to us to disconnect a service.

PRICING

All pricing in this document includes GST.

INFORMATION ABOUT PRICING (cont...)

SUBSEQUENT INSTALLATION FEE

A Subsequent Installation Fee of \$299 may also be charged by nbn co in the event sufficient infrastructure is not available or the service is being delivered along-side an existing active nbn connection at the same location. This fee is passed through at cost and is not included in any minimum term discounts or waivers.

NEW DEVELOPMENT SURCHARGE

In April 2016, the federal government announced a New Developments surcharge of \$300 which applies to the first nbn connection at certain premises. This surcharge is passed through at cost and is not included in any minimum term discounts or waivers.

BUNDLING

Bundle pricing is not available with Telair off-net nbn™. For considerably reduced pricing, please visit telair.com.au/nbn to view our on-net plans which also offer bundle discounts.

OTHER INFORMATION

SERVICE SPEEDS

Any speeds mentioned are only an indication of what you may experience on your service. Your speed will be affected by factors including the technology over which services are delivered to your premises, network configuration and traffic management (particularly during peak periods when more people are online), the nbn™ powered plan you choose, the performance of your modem, Wi-Fi, cabling, and other devices in your premises.

You will experience download speeds below 25Mbps on Starter, below 50Mbps on Jet Boost and below 100Mbps on Sonic Boost. Your speed will be particularly affected even further during peak usage times (7pm to 11pm). Refer to the Key Facts Sheet: nbn Broadband document for more information relating to speeds on the nbn™ network.

For FTTN/FTTB services, actual speeds and Speed Boost eligibility will be confirmed following service activation. Sonic Boost is not available on nbn™ Fixed Wireless. Not all speeds greater than Starter are available at all premises. Speeds may be further impacted during co-existence period.

CONNECTION TIMEFRAMES

Typical installations take between 1 day and 4 weeks to complete. Timeframes can depend on building management approval, site access and nbn technology type.

EQUIPMENT

You may use your own modem/router provided it is compatible with our service; however this means that you will be responsible for the configuration and management of the router. Ask us for information on approved routers for purchase. Home Network Gateway required for UNI-V Voice.

BILLING

We will bill you in advance for the minimum monthly charge and features. Your first bill will include charges for part of the month from when you took up your plan until the end of that billing cycle, as well as the minimum monthly charge in advance for the next billing cycle.
