

# KEY FACTS SHEET

## Business nbn<sup>®</sup> Internet

### Speed - how fast is it?

n25 <sup>1</sup>	n50 <sup>1</sup> & n75 <sup>1</sup>	n100 <sup>1</sup>	n250 <sup>1</sup>	n500 <sup>1</sup>	n1000 <sup>1</sup>
A	B	C	D	E	F
					
24Mbps download <sup>2</sup>	48Mbps download <sup>2</sup>	98Mbps download <sup>2</sup>	245Mbps download <sup>2</sup>	490Mbps download <sup>2</sup>	800Mbps download <sup>2</sup>

<sup>1</sup>This indicates the maximum possible speed (Mbps) you can receive off-peak (5pm-9am). n75 is available on Fixed Wireless services only.

<sup>2</sup>This is the typical download speed you can expect during busy periods (10am-3pm). It is not a guaranteed minimum speed.

If your line cannot provide the speed tier of your plan and this cannot be fixed, you can move to a lower speed plan or exit your contract without charge (for FTTN, FTTC and FTTB connections only).

Not all speeds are available everywhere. Contact us to confirm eligibility at your address.

### Usage - what can I do with it?

n25	n50 & n75	n100	n250	n500 & n1000
<b>1 - 2 People</b> at the same time	<b>3 - 4 People</b> at the same time	<b>5 People</b> at the same time	<b>5-15 People</b> at the same time	<b>15+ People</b> at the same time

Legend: ✗ = Not recommended | ✖ = May experience limited performance | ✓ = Should work fine

### Additional Notes

 <b>Technical Limitations</b> <p>Your NBN Service will not work during power failures unless connected using FTTP and an NBN battery backup power supply unit is installed and working. Your speed or performance may be reduced by other factors such as your in-office setup and wiring. Talk to Telair about what you can do to improve performance. For example, elevating your router above the ground may improve your speed as electrical objects may act as a damper.</p>	 <b>Medical Alarms/Security</b> <p>Before entering into a consumer contract, you should find out if any medical or security alarm services are not compatible with an NBN service and you should identify what alternatives are available. You can do this by contacting the provider of your medical or security alarm service.</p>
